

To whom it may concern,

My name is Dustin Claghorn and I am a graphic designer. Thank you for your consideration in hiring me for the position.

My experience and ability to communicate ideas can be a real asset. I have a strong sense of design with a friendly personality that makes working with clients and other designers easy and pleasurable. My 14 years of professional experience has given me the foundation to establish an eye for detail, the ability to maximize my time to meet crazy deadlines, and of course, develop excellent multitasking skills.

Specialties: I specialize in all types of print and digital media design utilizing the Mac OS & Adobe Creative Suite: InDesign, Premiere, Illustrator, Photoshop, Muse, and the others when needed. As you can see from my portfolio at ClaghornDesign.com my professionalism and design skills speak volumes of what I can accomplish. I also have extensive experience with Microsoft Office, Wordpress, online email campaign builders such as Mailchimp, ConstantContact, etc. and other digital work flow apps such as Wrike.

In my personal life, I enjoy spending time with my two children roller skating at the local rink or outside riding bikes with all the neighborhood kids. When the weather is nice, we like to go to the local river spot and play in the sand and water.

I am excited for this opportunity and look forward to setting up an interview at your earliest convenience.

Sincerely,

Dustin Claghorn
